SARMAD SIYAL

Android Developer

ABOUT ME

I'm a second-year Computer Science student passionate about learning and staying updated with the latest technologies. My excitement lies in Mobile App Development, and I'm determined to make it the focus of my career. As I continue to explore this field, I look forward to collaborating with teams and leveraging my creativity to contribute to the exciting world of mobile technology.

WORK EXPERIENCE

Android App Development

- Ongoing   **2023 to till i works**
- As an independent Android app developer, I have been actively engaged in conceptualizing, designing, and developing mobile applications. My responsibilities include:
- Collaborating with clients to understand their app requirements and objectives.
- Designing and creating user-friendly and responsive Android applications using Java and Android Studio.
- Implementing functionality and features based on user feedback and requirements.

Android Projects

1. **Ticktacktoe Game**   **01/2023- 02/2023**
- I designed and developed a classic Tic-Tac-Toe game app. This app provides a user-friendly and interactive gaming experience, allowing players to engage in strategic battles while honing their decision-making skills.
- I created this app using XML for designing its GUI and Java for Logic part of this project

2. **Quest Past Papers**
- I Developed a app named as Quest past papers that is specially useful for Quest students.
- This app includes many things related to university such as Courses of all semesters, Past papers of all departments that helps students in examination preparations and other things that will be very helpful for new comers.

3. **PakQuiz**
- I Developed a GK app about Pakistan that contains multiple quizzes that are differentiated through different sections like quizzes of history ,current affairs etc.
- Each quiz contains three answering options if clicked option is correct then it shows as green and then goes the next question but if clicked option is wrong then it displays as red and goes for further questions.
